An Improvement in the Situation in New Orleans.

There Have Been No Deaths From the Disease Since Friday.

The Formaldehyde Disinfection in Use in the City—The Only Druggist at Edwards, Miss., Stricken—Five New Cases and No Deaths at Mobile.

NEW ORLEANS, Sept. 27.—Sunday was the quietest of the week in New Orleans, and the fever situation, in spite of the appearance of a rather large number of new cases, may be said to have shown much improvement. Fifteen cases were recorded on the books of the board of health, but there was no death and there have been none since Friday. The authorities received reports during the evening from nearly every patient that is now under treatment, and these were all to the effect that the cases are doing well, and that no patient is in any immediate danger of dissolution. Some forty cases were reported to-night as being rapidly on the mend, and a number of them will be discharged during the week. One of the most dangerous cases that have appeared was discharged Sunday. It was that on Madison street, in the neighborhood of the French market, where the conditions were considered to be such as to warrant the fear that the disease would spread.

Unusual precautions, however, were taken by the authorities to quarantine the case and improve the sanitary conditions of the neighborhood and the fever in that vicinity seems to have been stamped out completely. At the Oakland Park detention camp all the refugees who have been given quarters were declared to be well, no sickness having yet appeared in the camp. Prof. Metz has a large number of formaldehyde generators now at work. Sunday he burned in the street the bed-clothing and other articles in the house where the man Serres died on Constance street, the clothing first having been subjected to formaldehyde disinfection. Some discomfort and loss is being suffered by the poor classes whose effects have to be burned, but Prof. Metz said Sunday night that he was hopeful of getting the city to make an appropriation to cover just such cases of distress. Prof. Metz has placed these generators at the railroad depots and baggage is being promptly and thoroughly disinfected before it is put on trains. The local charity organization is taking steps to relieve all cases of destitution that are presented. The board of health supplies medicines and the charity hospital physicians, and the charity organization will try to provide food for the poorer classes.

EDWARDS, Miss., Sept. 27.—There was one death from yellow fever here Sunday—that of Mr. S. S. Noblin. Twenty-three cases were reported since seven o'clock Saturday night. Mr. Ethel Crister, our only druggist, was taken sick Sunday morning and Dr. Hunter, of the state board, has been wired for another druggist, immune from the disease. Only three or four cases are considered serious and these are receiving the best of attention at the hands of experienced nurses. MOBILE, Ala., Sept. 27.—The returns at the board of health office Sunday for the 24 hours ending at noon showed five new cases and no deaths, with two patients discharged. This leaves 21 under treatment. So favorable a report was not looked for by many, for the weather has turned warm again and the increase in number of cases the previous two days seemed a prelude to a serious turn of the outbreak. There is, however, no actual change for the worse. The case on Lafayette street, near the Old Shell road, being but a reappearance of the disease in one of the foci where it had seemed to be stamped out. This case is that of Brother Symphorian, of the Catholic school and orphan asylum on that street. There has not been any case in the school before, but several cases in the vicinity. The isolation of the sick man is complete, the infirm being detached from the school proper.

NEW MANAGER FOR THE PITTSBURGH CLUB. PITTSBURGH, Pa., Sept. 27.—W. L. Watkins, of Indianapolis, is slated for the position of manager for the Pittsburgh baseball team, to succeed "Pat" Donovan. The club officials here will neither confirm nor deny this statement, but the fact that the deal has been made is learned from authority that can not be questioned. The new manager will assume charge about the middle of October.

HIS BALLOON EXPLODED. NIAGARA FALLS, N. Y., Sept. 27.—Prof. Lee Stevens made a balloon ascension here and when about 5,000 feet in the air his balloon exploded. Stevens was hanging from his toes from a trapeze when the explosion occurred. He quickly drew himself up and while the collapsed bag was rushing downward managed to detach his parachute and get clear from the balloon. He landed without a scratch.

DEATH OF MAJ. EDWARD L. MERRILL. FAIRMONT, Me., Sept. 27.—Maj. Edward L. Merrill died Sunday afternoon after an illness of several months, aged 70 years. He was Assistant Secretary of the Ways and Means Committee in the National House of Representatives. He was quite well known in Washington, having been the Assistant Librarian in the House of Representatives and Secretary of the government printing office.

KILLED IN A RUNAWAY ACCIDENT. HARTFORD, Ct., Sept. 27.—F. W. Valentine, a well-to-do lawyer of Brooklyn, was instantly killed in a runaway accident in the town of Pomfret Sunday afternoon. Henry L. Burt, a prominent druggist of Putnam, who was with him, was probably fatally hurt and the wives of both men were severely bruised.

## THE GRAND JURY

At Versailles, Ind., Makes a Final Adjournment Without Returning Indictments Against Lynchers—Another Grand Jury Will Be Convened.

INDIANAPOLIS, Ind., Sept. 27.—Information reached this city from Versailles that the grand jury, which has been investigating the recent lynching of five men at that point, has adjourned without returning any indictments, and that the adjournment was final, the jury reporting that there was nothing further for it to do. When the report reached Gov. Mount he at once telegraphed to the prosecuting attorney asking for information. A few moments after sending the dispatch he sent for the attorney general and the two were in conference over the matter for nearly three hours. The governor requested the state's legal adviser to go to Versailles in the event of the jury's failure to indict and take charge of the investigation in person. He said that he would confer with Judge New and have another grand jury convened at once, and the inquiry could proceed without delay.

Speaking of the situation Gov. Mount said: "If it be true that the grand jury has adjourned without finding indictments I will send the attorney general to the scene at once. I had a conference with him and he is in hearty sympathy with my desire to bring the perpetrators of the crime to justice. As soon as I hear from the local authorities I will be prepared to act intelligently."

## PRESIDENT MCKINLEY

Passes a Quiet Sunday in Adams, Mass.—Attends Church and Sunday School.

ADAMS, Mass., Sept. 27.—President McKinley passed the day very quietly. In the morning the president and the Misses Mabel and Grace McKinley, accompanied by their host, went to the Congregational church. The church was crowded and was decorated with flowers. The usual order of service was observed. At the close of the church exercises Sunday school services were held, which was attended by the president and the Misses McKinley, all of whom were seated on the platform. The president shook hands with 100 children of the primary department who marched past him.

The president and Attorney General McKenna will visit Williamstown Monday if the weather permits, calling on Dr. Franklin Carter, president of Williams college. It has not been settled when the president will return to Washington, but it is believed he will not leave Berkshire Tuesday evening.

## The Rye Crop.

NEW YORK, Sept. 27.—A disappointing rye crop is indicated by final returns to the American Agriculturist. Instead of some 25,000,000 bushels expected from earlier indications, the crop of the United States now figures out about 25,000,000 bushels, one million more than last year, and two millions less than in 1895 and 1894. The increase in Pennsylvania the western crop being quite disappointing. Latest European crop advices are confirmatory of serious shortages in rye, especially in Russia. Germany's rye crop seems to be somewhat larger than earlier reports indicated, but reduced estimates for France and other countries partly offsets this.

Suicide After Murdering His Mother. MANISTIQUE, Mich., Sept. 27.—Victor Anderson, of Whiteland, committed suicide after murdering his aged mother by firing four shots into her heart. It was a premeditated murder, as evidenced by a letter left, in which Anderson says that life became a burden to him, and with his mother would leave this world. Anderson was a prominent farmer at Whiteland.

A Hungling Hold-Up. MOONHEAD, Minn., Sept. 27.—The westbound passenger train on the Northern Pacific railway was held up three miles north of here at an early hour Sunday morning. It is said the express car carried a large sum of money, which the robbers failed to secure, owing to a blunder in cutting off the cars.

## A Big Deal.

SEATTLE, Wash., Sept. 27.—Fourteen gold mining claims in the Seward and Berner's Bay districts, in Southeastern Alaska, have been sold to New York and Denver men for \$200,000.

Burned Bridges Restored. NATCHES, Miss., Sept. 27.—The New Orleans and Northwestern railroad has restored its burned bridges, and is again carrying freight and mail, but no passengers.

Dropped Dead While at Dinner. TORONTO, Sept. 27.—Lieut. Col. Dawson, well-known in Canadian military circles, dropped dead Sunday evening while at dinner. He was about 60 years old.

## THE PARIS SHOW

Special Commissioner Handy and Assistants Busily at Work.

The United States Exhibits Will Surprise the Other Nations.

The Exposition of 1900, in Many Respects, Will be an Advance Upon All Predecessors—Education and the Arts Will Hold a Very Prominent Place.

PARIS, Sept. 27.—Maj. Moses P. Handy, the special commissioner from the United States for the exhibition of 1900, has lost no time in beginning work, although he has been in Paris only a few days. Maj. Handy is assisted by Lieut. Baker, who was connected with the Chicago exposition as assistant chief of the foreign transportation of exhibits, and by Col. Chaillet-Lory, who is secretary of the special commission. In a conversation with a press representative Maj. Handy made the following statements: "There is a rapidly increasing interest in the United States with regard to the exhibition of 1900. Since my appointment on July 27 I have been steadily at work. I spent a month in feeling the public pulse; I did that largely through correspondence and through newspaper publications. From the answers received I feel safe in saying that we shall need more space in 1900 than at previous exhibitions and that our exhibit will be of a higher order of merit. I am more anxious to select exhibits which will be truly representative and characteristic, rather than exhibits merely remarkable for their size. I shall be guided to a large extent by the correspondence mentioned with regard to the amount of space required, etc. I have had personal communication with the managers of the larger interests such as the bicycle trade, electrical concerns, the furniture trade and such like. Men like President Depew, of the New York Central, President Thompson, of the Pennsylvania railroad, and Mr. Pullman, of the Pullman Palace Car Co., have given me personal assurances of their co-operation. I have had overtures from the managers of the representative trades. It is better to deal with them in a classified way.

"How do you like the classification made by the French authorities?" Maj. Handy was asked. "It is excellent," he answered. "It is an improvement on all preceding exhibitions. I notice that with great propriety, education is placed first on the list, and art also holds a high place. In these two departments the United States has some surprises. I am in consultation with the leading educators of our country with a view to securing a consensus of opinion so as to form the best plan for showing the world what we are doing in the field of education. In all international exhibitions we have taken a very high place in matters educational, and I think we can do even better the next time. In the domain of art we have never been adequately represented."

## ALL QUIET

In the Hazelton Coal Region—Fourth Regiment to Be Withdrawn Tuesday.

HAZELTON, Pa., Sept. 27.—Nothing new developed Sunday in the strike region and the day passed quietly. All the collieries resumed Monday morning, some for the full week, others for part of the week. Gen. Gobin and his staff rode to Audenried Sunday afternoon and Sunday evening the Ninth Regiment gave a dress parade. It is announced at headquarters that the Fourth regiment is to be withdrawn on Tuesday. The Fourth is stationed at Drifton. A conference was held Monday to decide on the withdrawal of other troops. The failure of the coroner's jury to arrive at a verdict is variously commented upon. Another meeting of the jury is to be held Monday evening when it is expected a verdict will be rendered.

A meeting of miners was held at Freehold Sunday in which several prominent labor leaders, including General Organizer Fahey, of the United Mine workers, were present. The meeting was held behind closed doors and nothing was given out. It is known, however, that the miners are being more thoroughly organized, so that in the event of another strike, they will have a leader and organization. A gang of roughs broke into Squire Robinson's office at Audenried and demolished considerable furniture. Later the residence of Mine Superintendent Gomer Jones was stoned. Robinson refused to issue a warrant for Foreman Jones' arrest several weeks ago, and this is supposed to be the cause of the raid made on his office.

## Found in the Chicago River.

CHICAGO, Sept. 27.—The dead body of Edward Hill, of Buffalo, N. Y., was taken from the Chicago river Sunday. There was no mark on the body to indicate violence. It is believed Hill either fell off the dock into the river or tumbled overboard from some boat from Buffalo as it entered the river. Hill was a member of a well-known and wealthy family of Buffalo. It is said.

## Earthquake Shock in Maine.

BANGOR, Me., Sept. 27.—An earthquake shock was plainly felt here a few minutes after one o'clock Saturday. Reports from Oldtown, Winterport, Searsport, Liberty, Burnham, Rockland, Waldo and many other points announce that the shock was distinguishable in those places. No damage has been reported. The quake lasted from ten to fifteen seconds.

## Steamer Arabia Aground.

QUEBEC, Sept. 27.—A dispatch from St. Jean des Chollons, 37 miles above Huebree, reports that the Hamburg-American Packet Co.'s steamer Arabia, outward bound from Montreal for Hamburg, is aground at Cape La Roche and is making water rapidly. The spot is a bad one. Assistance has been sent from Quebec.

Col. Baldomero Acosta, one of the most active insurgent leaders operating in the neighborhood of Havana City, was captured by the Spanish authorities on board the steamship Concha as he was about to sail for Mexico. Col. Acosta was ill and came into Havana a couple of days ago. He got aboard in disguise, but just before the departure of the steamer the police got wind of his identity and arrested him.

A large meeting was held Sunday afternoon in Conser Square, Athens, where a resolution was adopted calling upon King George to renew the war with Turkey rather than accept the terms of peace offered by the peace conference. Most of the addresses were bellicose, one speaker making a violent attack upon the King and Crown Prince Constantine. The police endeavored to arrest him, but he escaped with the assistance of the crowd. The most influential section of the press continues peaceful in tone.
